

NHRA CHAMPIONSHIP DRAG RACING

10267 East U.S. Hwy 136
INDIANAPOLIS, IN 46234

To : JEGS
Attn : David Ruark
From : Glen Gray
Date : April 12, 2017
Re : JEGS Electric Junior Dragster

Mr. Ruark,

This letter is to serve as NHRA's acceptance of the Electric Junior Dragster submitted by JEGS for use in the Summit Jr Drag Racing League.

This acceptance is contingent upon the following criteria:

- All production units must continue to match the specifications, drawings and photographs presented to the NHRA during the approval process.
- All units must continue to meet all applicable requirements listed in the NHRA Rule Books.

At any time should the design, functionality, configuration, dimensions/tolerances, material, weight or manufacturing process(es) of the approved component(s) change; the NHRA technical department **must** be notified in writing immediately.

NHRA rules may be added, deleted and/or amended at any time which may affect the design, configuration, dimensions/tolerances, or material of the submitted component(s). It is the team's / manufacturer's responsibility to stay abreast of all NHRA rule changes.

Regards,

A handwritten signature in black ink, appearing to read "Glen Gray", enclosed within a circular scribble.

Glen Gray
